# AND IT CAME TO PASS

THAT between Diamond Head and the Waimanalo Mountains a Koko Head breeze shall blow until time shall be no more; a breeze that is delightful, soothing and exhilarating. A breeze that will give you strength, health and happiness. A breeze that will prolong life in the Hawaiian Islands and a breeze that will make PALOLO HILL the home land of the Pacific. YES, PALOLO HILL! It is there that you will become wonder-struck. It is there that you will fully realize what our real estate development means. You can see it and feel prosperity in the very air. And what a place to build a home! The high elevation, the cool breezes fresh from the mountains and the ozone laden sea, the eternal panorama of beautiful scenery---old Diamond Head, the City and the white ocean sails that come and go, the clouds, the rainbows, the moon-light, the glories of sun-set and of dawn all are there---and everywhere the beautiful homes and gardens are beginning to cover the barren soil, each an individual oasis coalescing into one superb and magnificent community. From the bosom of Palolo Hill you will draw in the breath of life, health and happiness. You will find what your heart has longed for---the ideal spot for your home.

## Live Where Life Is Worth Living

Enjoy the bracing out-door life.  
Enjoy the best nature affords.  
Live where the air is clear.  
Live where the air is crisp.  
Live where the air is purified in the bright sunlight.  
Live where the air is exhilarating.  
Live where the air is health-laden.  
Live where you can fill your lungs with ozone.  
Live where the altitude sets the heart to working vigorously.

Live where there is no sluggish circulation.  
Live on the hill between the city and sea.  
Live where you can get rest and relaxation.  
Live where you can get away from business cares for a little while each day.  
Live where the cool winds will blow the cob-webs off your brain.  
Live where the healing touch of Mother Nature will soothe the weariness and drive the aches out of your body.
